ICAR Sponsored Summer School
on

Empowering Rural Youth through Agri-entrepreneurship

(August 05-25, 2017)

Course Director : Dr. R.K. Sohane
Course Coordinator : Dr. Ram Datt
Sri Aditya

Organized by:

Directorate of Extension Education
Bihar Agricultural University, Sabour-813210
Bhagalpur, Bihar, India

BACKGROUND

Indian agriculture is facing several challenges including climate change, depletion of natural resources, changing production and consumption patterns, demographic changes, reducing interest of rural youth towards agriculture and so on. It has been observed that market linkages play a crucial role in making agriculture profession a profitable one. Agri-entrepreneurship plays a pivotal role in the transformation of subsistence farming into a profitable venture and it creates jobs, shapes entrepreneurial opportunities, brings competition, which ultimately improves farm productivity. It acts as a catalyst for development of agriculture and overall improvement of economic growth.

Adoption of newer established technologies would act as a strong medium in promoting sustainable livelihoods for about 900 million people across the world who are in poverty and distress. Innovation is the central point in the development of entrepreneurship. Entrepreneurs make innovations possible and operate under creative disruption. They try to address local issues and harness the potential of entrepreneurial opportunities, thereby generating employment and income for the local economy. This process has multidimensional impact on the local market and local economy. Eastern Gangetic Plains (EGP) is the home to 300 million people, with the world's highest concentration of rural poverty and a strong dependence on agriculture for food security and livelihoods. It is very much applicable to the state like Bihar where more the 90 per cent farmers are categorized under small and marginal. Agri-entrepreneurship is the way by which we can enhance the socio-economic condition of grassroots. The retention of rural youth in farming calls for promotion of entrepreneurial activities in the field of agriculture and allied areas.

The course is designed primarily to provide knowledge and information to the participants on agri-entrepreneurship, venture planning, leadership, management and related aspects.

ABOUT THE COURSE

The course includes theory lectures, practical classes along with participants' exposure to the successful agri-entrepreneurs. It will also provide an opportunity to the participants to interact with the subject experts and fellow workers from different parts of the country and update themselves with the latest information in the field.

OBJECTIVE

The objective of the proposed summer school is to bring together multidisciplinary researchers / scientists working in the field of agribusiness and/or extension education and to apprise them with the necessary skills on agri-entrepreneurship for better understanding of the process and procedure involved in setting up of small enterprises.

ABOUT BAU, SABOUR

Sabour is a beautiful countryside located in Bhagalpur district of Bihar and renowned for being one of the oldest college and research centre in the Indian subcontinent. Bihar Agriculture College (BAC), Sabour was established by the Britishers in the year 1908. It is located at 25° 15'N latitude, 86°57'5" longitude and altitude of 46m above mean sea level.

Bihar Agricultural University was established at the same place on 5th August, 2010 to serve as a leading centre of education, research, extension and training in the field of agriculture and allied subjects in the state. Within a short span of time, the university has received several accolades for its excellence in work. Besides, BAC, it has four Agricultural Colleges located at Saharsa, Purnea, Kishanganj and Dumraon, one Horticulture College at Noorsarai (Nalanda), one Veterinary College at Patna, one Dairy Technology Institute at Patna, 13 Research stations and 20 Krishi Vigyan Kendras spread in 20 different districts of Bihar. Sabour (SBO), Bhagalpur (BGP) and Naugachhia (NNA) are the nearest railheads located respectively 0.5 km, 9.0 km and 22.0 km away from the university headquarters. It is well connected to Kolkata, Mumbai, New Delhi and Chennai by train. It is also well connected with Patna Airport and Baggdogra Airport. Weather during the month of August is hot and humid with moderate rainfall and average temperature ranging between 30-35°C.

ELIGIBILITY

- Master's Degree in agriculture and allied disciplines with working knowledge of computer.
- Working not below the rank of Assistant Professor and equivalent in the concerned subject in Agricultural University/ICAR Institute.

BOARDING AND LODGING FACILITIES

Participants will be accommodated in guest house/ hostels located at BAU campus or nearby along with provision for food. Participants are requested not to bring any family member as the accommodation is strictly limited for trainees only. The participants will be paid for the journey, to and fro, restricted to AC-II tier train fare or bus or any other means transport in vogue, as the case may be, actual certificate by the participants. TA may be paid from the place of duty to the summer/winter school location and back by the shortest route.
